PATHNORTH

JOHN & MARGARET DALTON
PATHNORTH SERIES ON CIVILITY

“When you are really struggling with someone, and it’s someone you’re supposed to hate because of ideology or belief, move in. Get curious. Get closer. Ask questions. Try to connect. Find something.”

Brené Brown

WHAT IS THE SERIES?

In 2017, PathNorth began hosting bi-monthly lunches featuring leaders who exemplify civility through their work and passions. The idea was simple: if we highlight more leaders who practice civility, the PathNorth community might be well-positioned to inspire others to bring more civility to society. Long-time PathNorth members John (*former Secretary of the Navy*) and Margaret Dalton, two individuals who exemplify civility in its truest form, generously underwrite and co-host each of these unique and important convenings.

WHAT IS PATHNORTH?

PathNorth, a 501(c)(3), was founded and shaped by concerned leaders who believed that they, and many of their peers, had become increasingly isolated and could personally and professionally benefit from rethinking their notions of success. Through the exploration of new perspectives and the discovery of deeper meaning and purpose, PathNorth aims to inspire leaders to be better versions of themselves, believing this will contribute to a better society and culture, one that is more inclusive and caring.
